

# ■ PizzacoinMem Whitepaper

## 1. Introduction

Bitcoin Pizza Day, marked every year on May 22nd, celebrates the first real-world Bitcoin transaction in 2010. That day, a programmer exchanged 10,000 BTC for two pizzas, proving crypto could be used beyond online forums.

**“And that’s a wrap! ■■ Whether you read every word or just skimmed for the memes, you’re now officially smarter than 99% of people at the dinner table when crypto comes up. Remember: this isn’t financial advice... unless you really love pizza, memes, and the idea of making history together.**

**Now close this whitepaper, grab a slice, and let’s build the future—one laugh (and one coin) at a time.**

**Because at the end of the day... who doesn’t love pizza and memes? ■■”**
